RENTAL & LEASE

Delivering the right vehicle from day one

Why partner with TR Group?

Our customers tell us that getting the right truck in the right condition and helping them be as safe, compliant and profitable as possible are the most important things we can do.

We aim to do this by being your complete, long-term heavy transport partner. We're dedicated to helping you improve your business by maximising the uptime and performance of your fleet while always working hard to deliver the fleet you need, ready to work, when you need it. That's why TR Group is the heavy commercial vehicle partner you can trust.

So whether you're considering renting, leasing, training your drivers or purchasing one of our quality used vehicles, talk to us today about how we can help.

4 Reasons to choose TR Group as your commercial vehicle partner

01

We have a team of over 350 people ready to help.

02

**We have over 10,000 vehicles under our care
– a vote of confidence from our customers.**

03

We have 10 branches throughout New Zealand and 7 in Australia.

04

Every lease comes with a free driver training voucher. To date TR Driver Training have delivered over 3,500 free training courses to our customers.

At TR Group, we have a culture and style that works for you.

Since 1992, the same fundamental values that we started with are still a part of our company culture, and we believe you'll notice this whenever you deal with anyone from TR Group. They are non-negotiable and something we live by daily.

It's the TR way!

Our Values

Ownership

"TR is its people of which I am one"

We take personal responsibility and understand our contribution makes a difference to what TR stands for and does. We understand how value is created and how we contribute.

Teamwork

"Together we are better"

We support, encourage, celebrate and respectfully challenge each other, to achieve something extraordinary.

Leadership

"Being aware of and deliberate with our influence"

Knowing ourselves - we stay humble, continually learning and growing.
Leading others - we find ways to support our team to be at their best.
Leading the business - through our actions and understanding their impact.

Honesty

"With ourselves and others"

We choose the often harder yet ultimately healthier path of being true to ourselves and constructively honest in our communication and relationships. Honesty is a cornerstone of TR.

Continuous Improvement

"Consciously challenging ourselves to be better"

Learning and having the courage to act creates success for:

- Ourselves
- Our families
- The TR team

Care

"About what we do and what it results in"

Doing what's right, for each other, in our work, our community and the environment. Leaving a lasting imprint.

Customers

"The very reason for our work"

We work hard to understand and provide what our customers really value. Every customer of TR is 'our' customer.

Work Ethic

"Do an honest day's work and you will be fine"

Every day we do the best we can. The judge of that is ourselves.

Why rent a heavy vehicle from TR?

You get flexibility and choice every single time you deal with us. Whatever you need, renting a truck or trailer from TR Group is simple and easy. We'll work hard to give you the flexibility and choice that you need. **Here are 6 benefits of renting with TR:**

Range to suit your needs

With over 120 categories and 1,500 trucks and trailers available – we have the heavy commercial vehicle solution for any project.

From 1 Day to 12 Months or More

Your contract can start with 1 day or whatever works for you. When you're finished, simply return the vehicle and come back when you need it again. Rental allows you to easily adjust the size of your fleet as demand peaks and flows throughout the year for your business.

Modern, Safe, Fuel-Efficient Trucks & Trailers

We're constantly updating our rental fleet to offer the latest specification equipment with market leading safety, technology, the lowest fuel consumption, and class-leading tare weights and payloads.

Flexibility and Choice

Our team will work hard to understand your requirements and provide a solution that will meet your needs.

You're covered 24/7/365

Any gear that you rent from us is backed 24 hours a day, 7 days a week by our Maintenance and Rental Team.

Available Nationwide

Our rental equipment is conveniently available nationwide from our 8 rental branches.

**When you rent a truck or trailer from TR Group,
our commitment to quality never waivers.**

Rentals allow customers flexibility to set their core fleet more efficiently.

Renting from TR Group is an effective & simple way of meeting short-term needs and fluctuating fleet requirements without the risks and long-term costs associated with ownership. It can improve fleet utilisation providing capacity where and when you need it.

With TR Group, you get flexibility and choice.

- Our team will work hard to understand your requirements and provide a solution that will meet your needs.
- Vehicles will most commonly remain in TR Group's livery, but our rentals can be painted or wrapped in your company colours should you wish.
- To make things as simple as possible for you, your monthly rental bill includes tyres and Road User Charges.

“ We needed a nationwide network to help us stand up our business in quick time. TR Group responded with trucks in three different regions and that's one of the reasons they were the obvious rental partner of choice for us. **”**

Ross Whelan, Ecopond National Operations Manager

Why lease a heavy vehicle from TR?

Leasing with us allows you to get on with running your business while we provide you with certainty of costs and always make sure your vehicles are available, ready to work all day every day. **Here are 6 key benefits:**

The right vehicle for the job

TR will source, price, specify, and build the right vehicles based on our experience and understanding of what the vehicle needs to do. This means vehicles with the latest technology are put on the road with the optimum specifications to get the job done efficiently and safely.

Maximising Uptime

We are focused on maximising the uptime of our vehicles with robust preventative maintenance plans and by holding a stock of 'swing componentry' for parts that are quicker to replace than rebuild.

Downtime Guarantee

If your vehicle is new (less than 12 months old with less than 200,000 kms travelled), we will credit you or provide (subject to availability) a replacement for any time it is off the road unexpectedly. Once your vehicle is over 12 months old, we will credit you for any time it is off the road after 96 hours for any unscheduled maintenance.

Free Driver Training

Available with every new truck and specialised trailer (e.g. Swinglifts) leased through TR Group. This means your drivers will be trained on how to operate your vehicles as safely, efficiently, and compliantly as possible.

Rental 'Fill-In'

While you are waiting for your new lease vehicle to be built, subject to availability, we will provide you with a rental vehicle at your lease rate.

End of Lease

You have a number of options: the vehicle can be returned to TR Group with no further obligation, you can extend the vehicle for a further term, or you can replace your vehicle with a new one from TR Group.

TR Group can provide a competitive alternative to ownership through leasing.

“ We started setting up our own transport fleet almost 2 years ago, and TR Group has been a fantastic business partner on this journey with us. They offer 24/7 support and their expertise across the country is invaluable. We have built numerous new trucks as well as refurbished existing fleet.

The process around it all is professional and hassle free.

The amazing work TR does means we have quality fit for purpose gear around the country to ensure we are able to provide the high level of service our customers expect. TR takes care of everything and are the preferred heavy commercial lease and rental partner for Steel & Tube. ”

Nick Turner, Steel & Tube - National Commercial Freight Manager

There are two specific types of leases that TR Group offers:

1. Fully Maintained Operating Lease (fixed monthly payments for the duration of the lease)

Cash Flow Certainty

All costs over the term of the lease are known, which means there are no surprises or changes. If the economics work for you on day one, they will work for you every day.

Utilise TR Group's Buying Power

With our buying power, longstanding relationships with OEMs and expertise, leasing with TR Group more often than not provides a viable alternative to ownership.

Cost of Time

Have you ever estimated the cost of the amount of time spent on administering your fleet? These include breakdowns, paying invoices, organising servicing, selling, etc. We take this hassle away so you can focus your time on making your business as effective and profitable as possible.

Your Risk is Reduced

TR Group takes on the residual value risk, the asset maintenance risk, the interest rate, and inflation risk, meaning your outcomes are known, and your costs are fixed through the life of the lease.

2. Fully Maintained Operating Lease - Time and Mileage

Time and Mileage is a unique, fully maintained lease option created for customers who want the benefits that an operating lease provides, but also like the flexibility to adapt to the changing demands in their business.

By billing monthly in arrears, based on the actual kilometres travelled, Time and Mileage doesn't lock you into a predetermined monthly lease payment and only charges you for the kilometres you have actually travelled.

The advantages of Time and Mileage include:

Simplicity

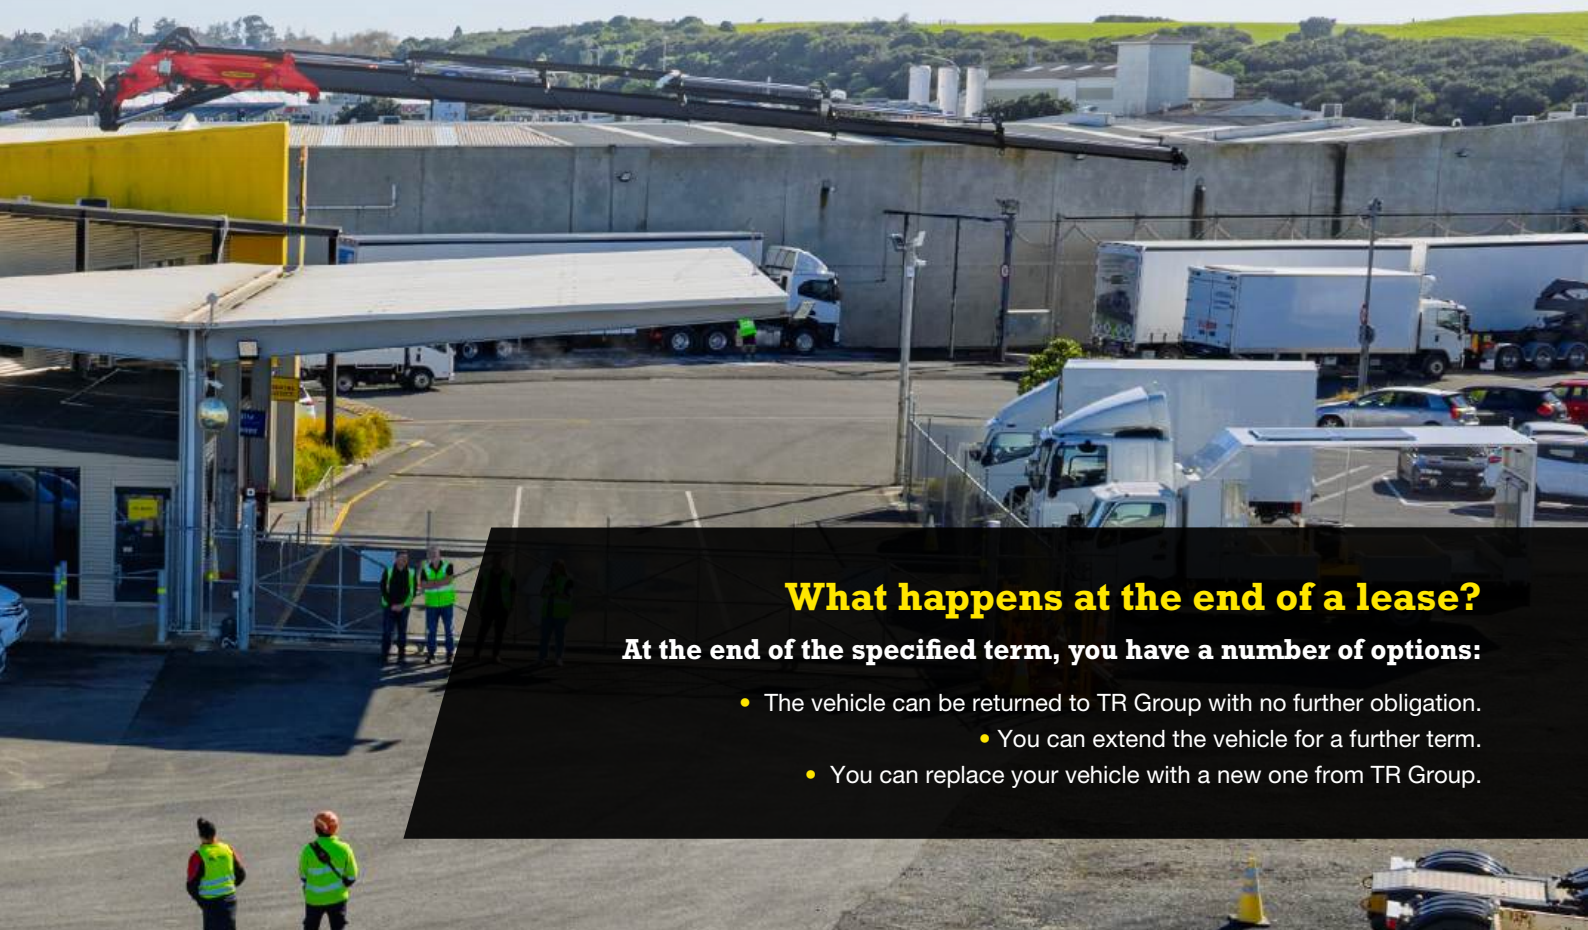

- There is less need to monitor and adjust for differences between agreed mileages and actual mileages. The distance you actually travel is largely adjusted for by the structure of the lease.
- Downtime, by default, is automatically compensated for.
If you are not using the vehicle, there will be no usage costs associated with that period.

Improved Cash Flow

Your lease is billed in arrears. Road User Charges (RUC) and tyres can also be included as an option.

This means that:

- Your commitment to us is more closely aligned with your own revenues.
- You don't carry any RUC inventory on your leased vehicles.
- There are no advance lease payments.

What happens at the end of a lease?

At the end of the specified term, you have a number of options:

- The vehicle can be returned to TR Group with no further obligation.
- You can extend the vehicle for a further term.
- You can replace your vehicle with a new one from TR Group.

What About Maintenance?

When you put your heavy commercial vehicle on the road, you expect it to work hard, be reliable, and cause you no surprises. The reality can be very different, which can cost you a lot in time, money, and frustration.

Even if the vehicle is an excellent performer, it still takes constant vigilance and proactive management to ensure it stays that way. That's why we have a great team of people to keep your lease or rental truck running.

Maintenance benefits to make life easier for our customers:

Efficient & Effective All Day, Every Day

With over 10,000 heavy commercial vehicles under TR Group's care, our maintenance team's sole focus is to ensure all vehicles are on the road working at their most efficient and effective all day, every day.

Immediate Access to Parts

Should your vehicle suffer an unexpected fault, TR Group also holds a stock of spare parts overseen by our parts manager to minimise downtime.

The Correct Tyres at the Correct Pressure

Part of optimising vehicle performance involves choosing the correct tyre setups for each vehicle, determined by its area of operation and application. The correct tyres operating at the correct pressure have a significant impact on the overall running costs of your fleet.

Efficient Repair & Maintenance Costs

TR Group can leverage greater efficiencies and apply economies of scale to maintain our customers' heavy commercial vehicles more cost-effectively than a single customer can on their own. The benefit of this is that it allows you to cut repair and maintenance costs over the full life of your heavy commercial vehicle fleet.

Breakdown Support

Our 0800 number is manned 24/7, meaning we are always available to manage and assist with unexpected maintenance issues should they occur.

Optimum Performance Levels at All Times

By utilising TR Group's expertise and experience, our customers can be secure in the knowledge that uptime will be maximised for the entire life of the vehicle. We work closely with our nationwide network of service providers and the OEMs so preventative maintenance plans are in place to ensure your vehicle is at optimum performance levels at all times.

“We can't afford to have our trucks not on the road every single day. Now I don't have to worry about that at all.”

Lee Jeffrey, LIC Herd Test Supply Chain Manager

TR Driver Training provides quality education, training, and assessment programmes for drivers, operators, instructors and assessors throughout New Zealand.

We are a professional training provider to operators of light and heavy vehicle fleets.

We also offer courses for businesses that run forklifts, specialist vehicles, plant and machinery.

The benefits of TR Driver Training:

Risk is Reduced

Our training programmes ensure increased safety, efficiency & compliance.

Nationwide Facilities and Online

Flexible training environment options to suit your business needs: in vehicle, in-classroom, or online.

Experience and Knowledge

A professional and passionate team of driver trainers with extensive industry experience.

Purchasing a used commercial vehicle isn't an easy decision to make.

Let's face it, there are many places where you can buy a used truck or trailer. With all these possibilities available, it can be a daunting task to choose the right vehicle that's set up to meet your needs. The majority of vehicles available from TR Used Vehicle Sales come directly from our own lease and rental fleet.

Here are 6 good reasons to buy a used vehicle from TR Group:

Full service history available

The vast majority of vehicles available from TR Used Vehicle Sales come direct from TR Group's lease and rental fleet so you can be certain they've been looked after for every kilometre travelled.

Largest selection of trucks and trailers

We have an extensive fleet of over 10,000 vehicles so if you can't find what you are looking for, there is a good chance we can find it for you.

Services to meet your needs

When needed, we have a range of services available to help you create the perfect vehicle. From assisting with painting into fleet livery, modifying chassis' or body equipment or working with our finance partners.

Nationwide coverage

With hundreds of vehicles on hand at any given time, our selection is unrivalled and available for nationwide delivery. We can assist with travel costs in situations where a vehicle is purchased.

Unmatched sales service

Our specialist sales team has an unmatched wealth of experience and know-how in the heavy transport industry, so they can assist you in choosing the right vehicle for the job.

Fully refurbished

We have Refurbishment Centres in Auckland, Hamilton, Mount Maunganui to ensure that the vehicles you buy from us look great and are ready to work.

TR Used Vehicle Refurbishment Centres

Our in house refurbishment centres allow us to comprehensively check over our vehicles and prepare them for sale. Our commitment to quality means you can expect our used vehicles to be delivered in the best possible condition for their age. We take a great deal of pride in the presentation of our vehicles to ensure they exceed our customers' expectations.

The experienced TR refurbishment team have the ability to modify, rebuild, reconfigure and repaint any vehicle to suit customer's needs in a timely and cost effective manner.

Sustainable Refurbishment Solutions

As we constantly work towards better lead times for repairs and getting our customers back on the road faster and safely, it's important we do this responsibly with as little impact on the environment as possible.

Sandblasting

We reviewed our standard processes and looked at how we can minimise our impact on the environment. Since this review, we have upgraded our sandblasting facility. This upgrade allows us to recycle our sand up to 8 times, saving 16 tons of sand and significantly reducing the amount of waste we produce each year.

DG Products

We are collaborating with key suppliers such as PPG around waterborne products and new state-of-the-art wrapping procedures as part of our continuous improvement and sustainability efforts.

As a member of the Collision Repair Association, we are regularly audited and work with our DG partners to learn new practices to keep our team safe and minimise our impact on the environment.

“ Can't complain with the immaculate refurbishment you guys did. Everyone still mistakes it for a brand new unit. ”

Ashvyn Prakash, General Manager, Express Freight and Logistics

At TR Group, everything we do is always undertaken with our customers at the forefront of our minds. We're living in an unprecedented time of change in the heavy commercial vehicle industry and technologies are evolving quickly. It is important that TR Group leads our customers through the development and support of new technologies in our industry.

Alternative Fuels

TR Group is leading the way forward in supporting and promoting alternative-fuelled trucks in New Zealand and Australia. Doing the right thing is acknowledging that TR Group has a big part to play in the adoption of low and no-emission transport technology for heavy commercial vehicles due to our position in the industry.

We are working alongside customers who share similar values to ourselves when it comes to decarbonising the transport network and making the world a greener place. If we are serious about reducing our impact on the environment, it is important that we embrace and seek

to understand this technology and help develop it for our conditions as well as helping to develop the support networks for it, such as service and repair expertise and the vital refuelling infrastructure. This can only be done with real-world use of this technology.

Alternative fuel commercial vehicles are an area that we are proud to say we are already making great strides towards. We have already invested in this technology into our lease and rental fleet, and by introducing industry-leading options to our customers. We look forward to playing our part in the journey towards a zero-emission transport future.

**We are future focused to help keep
your business moving forward.**

Hydrogen Fuel Cell Trucks

New Zealand's first Hydrogen FCEV is now on the road and working. It has been deployed on commercial operations since 2023, having completed more than 250,000kms, eliminating the need for an estimated 86,000 litres of diesel which represents 80 tonnes of carbon dioxide equivalent, and purifying the air around the vehicle at the same time. We will take the learnings from this

Hyundai Xcient with New Zealand Post and apply it to the subsequent 20 Tractor Units arriving in New Zealand shortly to go on the road in mid 2026. These trucks are built on a DAF CF85 cab and chassis and manufactured to completion by leading hydrogen integrators GBV. It is expected that they will have a range and capacity similar to an equivalent diesel tractor unit.

“ One of Hiringa's biggest target was to achieve as low a fuel emissions as possible and during the 22 trips to their solar farm in Ruakaka we saved 10 ton of CO₂ emissions into the atmosphere. Pretty outstanding result. ”

LEARN MORE HERE

Daniel Dalkie, Booth's Logistics National Line Haul Manager

Battery Electric Trucks

Our goal is to lead the way in offering our customers cost-effective, sustainable, zero-emission options for metro and shorter-range applications. TR Group has over 75 Battery Electric Trucks on the road and working in our rental and

lease fleets. So far these units have travelled a total of over 3,000,000 kms without using one drop of diesel. This works out to be an environmental saving of 1,732,644 kgs of CO2 not being emitted.

Other TR Sustainability Initiatives Include:

Recycled Rhino Mudguards

TR is proud to collaborate with Rhino Manufacturing in its initiative to recycle and repurpose plastic truck mudguards into New Zealand's first recycled plastic truck mudguards. These recycled mudguards are not only a sustainable solution but also a cost effective one, as the recycled mudguards are the same price as new guards. This initiative mean hundreds of plastic truck mudguards will not be going to landfill this year – and instead will be recycled into new mudguards for heavy commercial vehicles.

Engine Oil Bypass Filters

TR have been trialling ZEDone Oil Filters on 80 trucks. These filters have the effect of halving the oil usage on trucks. This is possible by passing the engine oil through another filter removing particles which in turn extends the life of the oil. As of the end of June, we have saved 14,822 litres of oil.

“ NZ Post’s transport fleet accounts for around 45% of our emissions so therefore NZ Post is focused on opportunities to decarbonise our transport fleet. Heavy transport plays a vital role in our economy, but it’s also a significant contributor to our national emissions so helping to reduce emissions within our road freight sector reflects NZ Post’s commitment to our people, our communities, and the environment. ”

**Dawn Baggaley,
NZ Post Group Sustainability Manager**

Recycled Curtains

TR has a partnership with one of our suppliers Straitline to use Transport 9000 Eco fabric for its truck and trailer curtains. This material contains a minimum of 35% recycled content, with the base cloth made from 100% recycled PET soft drink bottles. The material is estimated to generate a 14% reduction in carbon emissions compared to regular Transport 9000 PVC.

Hybrid Technology

After seeing the impressive fuel and emissions savings one of our customers have achieved with their units, TR Group have begun to add Hybrid trucks into our rental fleet in a variety of categories such as traffic management, toolbox tippers and metro curtainside delivery vehicles.

Our vision is to do something extraordinary...

EXTRAORDINARY RESULTS

By being the best in the world at hiring trucks and trailers.

Customer Value

Living Our Values

Ourselves

Always Growing, Learning and Improving.

A LASTING IMPRINT

By believing we can make a positive difference in people's lives.

Both what we do and how we do it are things that we want to feel proud of. These are our pillars. The pathway to achieving this is to constantly learn, grow and improve... for ourselves, our customer value and our capabilities.

FIND | OUR RECRUITMENT PROCESS

We understand that our overall success is down to the quality of the people we have here at TR Group. It's our strong belief that the inputs create the outputs. We take our time finding the right people for the right jobs and have refined our 3-stage process over the last 15+ years to be one that works for you and us.

DEVELOP | WE ENCOURAGE GROWTH

Part of our culture is continuous learning, we strive to be better tomorrow than we were yesterday. At TR Group our team have the opportunity to learn about themselves (self-development), the principles of Lean and other tools and models to help everyone be the best version of themselves both at work and home.

BELONG | FOCUS ON CONNECTION & TEAM

The TR team understand that we are only as strong as all our moving parts. We celebrate together, build relationships together, learn together and make a positive difference together. Our culture is one we all hold and care for deeply, with an emphasis on "you get out what you put in". We challenge each other to respect and contribute to the culture we have built over 30+ years.

Cultural Days

Our team of 350 people spans 20+ cultures. We celebrate our diverse backgrounds through the sharing of food and creating understanding of the national day of our different team members.

Annual and 6 Monthly Reviews

Our annual and 6 monthly reviews are linked to contribution to culture (how you do your work is equally important as what you do).

Celebrating Women in Transport

25% of our team are women and they work across the business in multiple departments from leasing through to driver training.

Parental Policy

Our policy centres around being able to support both parents immediately after birth and the subsequent transition back into the workplace for the primary parent who has taken extended leave. These benefits include a week's extra parental leave, a 4-month transition back to work for the primary caregiver and a week's extra sick leave for the first year returning to work.

Expanding into Australia

TR Group first started operations in Australia with one branch in Melbourne.

The fleet initially comprised of hire trailers only with the first Prime Movers arriving in early 2020.

Over the subsequent 7 years we have opened 6 additional branches creating a nationwide footprint in Sydney, Newcastle, Melbourne, Albury, Adelaide, Brisbane and Perth.

Our team has gone from 5 to 75 and we are still growing!

Today our fleet has Tautliners and a wide

**We are future focused to help keep
